Create. Compete. Celebrate

Club Rankings™

Complete user manual — leaderboards, confirmations, and admin tools

Product	Club Rankings™ (standalone or included in CCM)
Operator	StoufferAI
Version	August 11, 2026
PDF	/docs/club-rankings-user-manual.pdf

Two ways to use Club Rankings: (1) **Included** with full Club Court Manager — courts + rankings on one site (\$40/mo up to 6 courts, +\$5 per extra court, unlimited members). (2) **Standalone** (\$19/mo, 150 active members) — rankings only; keep CourtReserve or HOA scheduling. Upgrade from standalone to full CCM preserves all ranking history.

Book courts on your phone: full Club Court Manager communities can use the free native app — see CCM manual §1.6.

App Store: <https://apps.apple.com/us/app/club-court-manager/id6792025015> · Google Play: <https://play.google.com/store/apps/details?id=com.stoufferai.clubcourtmanager>

8. Part 7 — Upgrade to full CCM
9. Part 8 — Training

1. Overview & concepts

What Club Rankings is

Club Rankings is a **club-scoped** engagement and seeding system. Standings are valid only inside your club, per sport — not a global rating like DUPR or UTR.

- Each **sport** (Pickleball, Tennis, Bocce, etc.) has its own leaderboard.
- Players start at zero; rankings update after **completed** sessions only.
- Public points combine performance, participation, volunteer work, and sportsmanship.
- A hidden skill index helps with seeding and partner assignment — members never see it.

Event types

Type	How Club Play matches players	Typical use
Round robin	Full schedule at Start live; fixed teams rotate or random mix spreads partners	Nights where everyone knows the schedule up front
King of the court	Winners stay (fixed/singles) with a challenger queue; random mix fully re-pairs each round	Open play or social remix nights
Ladder	Adjacent ranks from a live ladder; upsets swap places	Season-rank challenge nights
Swiss	Each round pairs by tonight's record (wins, then point diff); fills courts; avoids rematches when possible	Large fields that should stay competitive round to round

Club Play format pairing detail → Mini-league Playbook §4.4.

Sport-specific presets apply when rankings are first enabled for a section (e.g. Pickleball vs Tennis weights).

Mini-leagues, Club Play, and Sessions

Three related layers inside Club Rankings (see also who does what):

- **Mini-league** — a season-style league within one sport (e.g. Mighty Wonders or Women's Doubles 3.5+ for six months). Standings appear on the **Mini-leagues** tab.
- **Club Play** — the hub at `/club-play` and one dated play event inside a mini-league (day or evening): member signup, live courts, game-by-game scores; standings update when you complete it.
- **Sessions** — browse completed results (including finished Club Plays) on the Sessions tab.

Handoff: Admin creates the mini-league and assigns captains → captain creates each Club Play → members sign up and play → captain completes scoring → everyone reads Mini-leagues /

Sessions.

A **mini-league** is a club-scoped season within one sport — often six months with eligibility rules. Admins create mini-leagues, assign **mini-league captains** to enter results, and may link event registration pages so sign-ups respect eligibility.

- Mini-league results can count toward the club-wide leaderboard (admin configurable).
- Built-in **templates** speed up creation — men's, women's, and mixed singles and doubles at rated bands (up to 3.0, 3.25+, 3.5+).

Archived mini-leagues stay in history but disappear from public pick lists. For the full signup → scores → results workflow, see the Mini-league Playbook (PDF).

Rankings wallet (QR + 4-digit confirm code)

Each ranked player receives a personal **rankings wallet** when they join a sport roster or register for a linked event:

- **Wallet QR** — opens `/rankings-wallet` to confirm session scores (scan at courtside).
- **4-digit confirm code** — backup if the card is lost or the camera fails. Used *only* to confirm or dispute submitted scores — not for sign-in.

View your QR and re-print from **My ranking**. Admins can **Regenerate wallet QR + 4-digit code** on the member profile if a card is lost.

Confirm session results

Enter your personal 4-digit confirm code from your rankings wallet card, or sign in and use the Confirm tab.

• • • •

Find sessions

[Open Club Rankings](#) · [Sign in](#)

Rankings wallet (</rankings-wallet>) — courtside confirm with sport + 4-digit code; no full sign-in required on a shared tablet.

Confirmation workflow

When a member **submits** session results, every participant must **confirm** (or dispute) before standings update — unless your admin sets **majority rule**. Admins can also enter results directly (no confirmation needed).

1. Submitter logs the session and players.
2. Other players confirm by: **wallet QR**, **4-digit code** (</rankings-wallet> or Confirm tab), **personal link** (email), or the signed-in **Confirm** tab.
3. When confirmations are complete, rankings recalculate automatically.
4. Disputes appear in Admin → Review for a final decision.

Where to open it

On your community site: </rankings> . If your admin set visibility to **Public**, anyone can view the **Leaderboard** tab without signing in. All other tabs — Sessions, Mini-leagues, club stats, My ranking, submit, and confirm — require sign-in. Tenant admins see **Admin** and **Captain** tabs, plus site nav **Club Play** and an Admin-page **Club Play** link next to Club Rankings.

Anyone interested in Club Rankings can open shared **Training** (fictional players only) from clubcourtmanager.com/platform/rankings or <https://your-sports->

club.clubcourtmanager.com/rankings-scenario . Choose **Member**, **Captain**, or **Administrator** on the welcome screen — see **Part 8**.

Part 1 — Members

Screenshots below were captured from the shared demo sandbox (sample data; resets hourly). Your community's branding and standings will differ.

1.1 Leaderboard tab

- Choose your **sport** from the dropdown.
- View **All time** or **Rolling window** (months set by admin).
- Columns show rank, name, total points, category breakdown (performance, participation, volunteer, sportsmanship), W–L–T, and events played.
- If your admin set visibility to **Public**, anyone can view the leaderboard without signing in; otherwise sign-in is required.
- Players below the minimum event count may not appear until they qualify.

The screenshot shows the 'Club Rankings' page for 'Your Sports Club'. At the top is a navigation bar with links: Help, Courts, Find a Player, My Reservations, Rankings, Training, Profile, and Sign out. The main heading is 'Club Rankings', followed by a descriptive paragraph and links to the 'Club Rankings manual' and 'Mini-league Playbook'. Below this is a 'Sport' dropdown menu currently set to 'Pickleball'. A row of buttons includes 'Leaderboard' (which is highlighted in blue), 'Club stats', 'Sessions', 'My ranking', 'Submit results', 'Confirm', 'Mini-leagues', and 'Captain'. Underneath these buttons are two more buttons: 'All time' and 'Rolling window'. The main content area below these buttons displays the message 'No ranked players yet (minimum 3 events)'. At the bottom of the page is a footer with the text 'Your Sports Club · Help · Terms · Privacy · Contact · your-sports-club.clubcourtmanger.com' and 'Club Court Manager™ powered by StoufferAI'.

Leaderboard — choose sport, All time or Rolling window, and view points breakdown per player.

1.2 Sessions tab

Browse **completed** club sessions for the selected sport (including Club Play nights). Click a row to see per-player scores for that session.

Club Rankings

Sport-specific standings for your club. Points reflect performance and participation — updated after each completed session. See the [Club Rankings manual](#) or the [Mini-league Playbook](#) for how to view results.

Club stats — community-wide activity summary for board reports.

1.5 My ranking tab

When your admin enables **club rating** for this sport, you may see two numbers on the same 1.0–5.5 scale:

- **Self-reported** — what you entered at signup or on Profile
- **Club rating** — adjusted from ranked sessions at this club (not an official DUPR or UTR rating)

Recent sessions may show a club rating change (e.g. **+0.04**) alongside performance point changes.

Your personal summary: total points with a full category breakdown (performance, participation, volunteer, sportsmanship), wins/losses, streaks, achievements earned, and your last 20 completed sessions (click any session for per-player scores). Also shows your **rankings wallet** QR and reminds you to keep your **4-digit confirm code** (shown once when issued). You can opt to hide your profile from the leaderboard with the privacy checkbox.

Club Court Manager™ powered by StoufferAI

My ranking — personal points, sessions, achievements, wallet QR, and privacy toggle.

1.6 Submit results tab

Not for live Club Play. Use this tab for *casual* sessions when there was no Club Play night. On a live Club Play session, the captain or admin enters court scores at `/club-play` ; members watch only — peer confirm does not apply. See Playbook §4 — When to use which.

1. Enter **event name** and **date**.
2. Choose **event type** (round robin, king of the court, ladder, Swiss).
3. Add a row for **every player** who participated (including yourself).
4. Enter wins, losses, ties, points for/against, and placement as applicable.
5. Click **Submit for confirmation**.
6. Share personal confirm links with other players (shown after submit).

You are auto-confirmed as the submitter. Everyone else must confirm from their link or the Confirm tab.

Club Rankings

Sport-specific standings for your club. Points reflect performance and participation — updated after each completed session. See the [Club Rankings manual](#) or the [Mini-league Playbook](#) for how to view results.

Event type

Round robin

Include yourself and every player who participated.

Submit results — log a completed session; other players confirm before standings update.

1.7 Confirm tab

Sessions waiting for your confirmation appear here when signed in. You can also:

- Enter your **4-digit confirm code** in the quick-confirm box (same code as on your wallet card).
- Open `/rankings-wallet` on a courtside tablet — choose sport, enter code, confirm without full sign-in.
- Scan your **wallet QR** — then enter your 4-digit code on that page.

For each session you can:

- **Confirm** — agree the results are correct; standings update when all required confirmations are in.
- **Dispute** — flag for admin review with a short reason.

A badge on the Confirm tab shows how many items need your attention.

Club Rankings

Sport-specific standings for your club. Points reflect performance and participation — updated after each completed session. See the [Club Rankings manual](#) or the [Mini-league Playbook](#) for how to view results.

Confirm — pending sessions, quick 4-digit code lookup, or dispute for admin review.

1.8 Achievements & bonuses

- **Fast-confirm bonus** — extra points if you confirm within the admin-set window (e.g. 48 hours).
- **Volunteer bonus** — admins mark **Vol** when entering results for members who helped set up or score.
- **Champion / placement bonuses** — configured per sport in admin settings.

1.9 Privacy

Admins set leaderboard visibility per sport under Admin → Settings:

- **Members only** (default) — sign-in required to view any part of Club Rankings.
- **Public** — anyone with the link can view the read-only Leaderboard tab without signing in; Sessions, submit, and other tabs still require sign-in.

Individual members can also check **Hide my profile from the public leaderboard** on the My ranking tab — others won't see you on the board (you still see yourself).

Part 2 — Administrators

Open **Club Rankings** and select the **Admin** tab (visible only to tenant admins).

2.1 Enter results

Direct entry — no member confirmation required. Use for league nights when the chair enters official results.

- Event name, date, type (**round robin**, **king of the court**, **ladder**, or **swiss**), and optional **weight** multiplier.
- One row per player — search roster by name.
- Check **Vol** for volunteers.
- **Save & recalculate** updates the leaderboard immediately.
- **Recent ranked sessions** — click to view or edit past events.

2.6 Standalone vs full CCM

Rankings-only tenants see court booking hidden; roster and import still available. **Full CCM** tenants also book courts, run event registration (Part 5), and may log ranking sessions from the admin schedule — when a schedule block has an event registration page, its **Log rankings** button opens the Events participants flow so results are scored in one place.

Part 3 — Settings reference

Setting	Purpose
Win % weight	How much win rate affects performance score
Placement weight	Finish position in round robin / KOTC / Swiss / ladder
Point diff weight	Points scored vs allowed
Opponent / partner strength	Reward beating stronger opponents
Age handicap weight	Boost for older players from date of birth (default 10 ; set to 0 to disable)
Age baseline / spread	When age handicap is on: age that scores neutral (default 50) and years to reach 0 or 100 (default 25)
Participation bonus	Flat points per event played
Max weekly gain / loss	Cap how much the hidden skill index moves per week
Min events for leaderboard	Players need N completed events to appear (default 3)
Champion bonus	Extra points for 1st place
Rolling window (months)	Leaderboard "rolling" view length
Visibility	Members only (sign-in required) vs public (read-only leaderboard at <code>/rankings</code> without sign-in)
Confirmation rule	All players vs majority must confirm
Fast-confirm bonus / window	Reward quick confirmations
Volunteer bonus	Points per volunteer session
Inactivity decay	Optional gradual point reduction after idle period
Club rating (master)	Opt-in play-adjusted 1.0–5.5 skill rating; off by default
Club rating display	Independent checkboxes: Profile, My ranking, Leaderboard column
Min events for club rating	Show ☐ until member completes N ranked sessions (default 1)

Rankings wallet	Auto-issued QR + 4-digit confirm code per member (confirm scores only)
-----------------	--

Part 4 — CSV import tips

- Use the provided templates — column headers must match.
- Roster rows need at least name + email (or member number if already in system).
- Before first invite, full CCM admins confirm **Member profile rules** in Admin → Members (email, skill rating, photo ID, and other required fields).
- Results rows need event date, type, and per-player stats.
- Import roster before results if players are not yet on the sport roster.
- Large imports: preview first; fix row errors before running import.

Full CCM admins can also import members via Admin → Members (CourtReserve-style CSV) — that populates sign-in accounts; use Rankings Import for historical scores.

Part 5 — Event registration

Full CCM communities (and rankings-only tenants with events enabled) can run public registration pages from **Admin → Events**.

5.1 Create an event

1. Admin → Events → create event with title, date, sport, capacity, and registration deadline.
2. Optionally link a **mini-league** — registrations check eligibility (gender, rating, format).
3. Publish and share the registration URL (`/event?code=...`) or QR code.

5.2 Member registration

Members sign in, open the event link, and click **Register**. If they do not meet mini-league eligibility, the page explains why registration is blocked. The event page shows the linked mini-league name and rules when applicable.

5.3 Enter results from the roster

After the event, open the event in Admin → Events → **Enter rankings from roster**. Players who registered are pre-filled; enter wins, losses, points, and placement, then save. Standings update for the linked mini-league and the club-wide board.

Part 6 — Mini-league captains

Mini-league captains are members assigned to enter official results for one or more mini-leagues — without full admin rights.

- Assign under Rankings → Admin → Mini-leagues → select mini-league → search member → **Assign captain**.
- Captains see a **Captain** tab in Club Rankings for their assigned mini-leagues. Tenant admins also see the **Captain** tab (all active mini-leagues) even when they are not assigned as captains.

Club Rankings

Mini-leagues

Captain

Mini-league captain

Manage your assigned mini-leagues: create additional leagues, enter results, and adjust scoring weights. New to the role? Read the [Mini-league Captain manual \(PDF\)](#) or the [Mini-league Playbook — post scores](#). To practice Club Play and result entry, open [Training](#) and choose Captain (fictional players only).

► Create mini-league

Your mini-leagues

Captain tab — enter mini-league results, run Club Play, and create additional leagues.

Captains can:

- Enter session results for assigned mini-leagues (no member confirmation required).
- Edit mini-league description and optional custom scoring weights.
- Create **additional** mini-leagues from the Captain tab (after admin assigns them to at least one mini-league).
- Run **Club Play** sessions — live registration, courts, game-by-game scores, and automatic standings update.

Captains cannot:

- Bootstrap the club's first mini-league — admin creates and assigns initial captains.
- Change name, season dates, or eligibility on an **existing** mini-league.
- Assign or remove other captains, archive mini-leagues, CSV import, or dispute review.

Distribute the dedicated Mini-league Captain User Manual (PDF) to volunteers in this role.

6.1 Club Play (members & captains)

Club Play (/club-play) is one dated play event inside a mini-league (day or evening) — captains and tenant admins create it and **enter live court scores** (phone or desktop); members

sign up via the shared link and **watch** scores (they do not enter or peer-confirm games during the night). Open it from site nav **Club Play**, Rankings → **Captain** → **Run Club Play**, or Admin → **Club Play**. At **Start live**, optionally set **Number of rounds** (blank = round-robin default length, or unlimited king of the court / ladder / Swiss until End session). After completion, game-by-game scores appear on the Sessions tab. For casual play without Club Play, members use **Submit results** (§1.6) with peer confirm instead. Roles: who does what. Detail: Mini-league Playbook §4; Captain manual.

Pairing vs scoring

Live **pairings** (who plays whom) are driven by format, court count, signup order, partner mode, game scores, and (for ladder and Swiss round 1) mini-league standings seed — **not** by weight sliders, age handicap, or skill rating. **Scoring weights** apply when a session is completed: each player gets a weighted **performance score** that feeds mini-league and club-wide standings. Session **placement** for king of the court, round robin, and Swiss uses wins, then point differential, then a weighted tiebreaker (same weights as your club, excluding placement). **Ladder** sessions use final ladder order for placement. How each format matches players: Playbook §4.4. Placement detail: Playbook §4.5.

Open & live sessions

Sign up for registration, or follow live courts and scores.

No Club Play sessions right now. Check back soon or ask your captain.

When a captain opens registration, sessions appear here.

Start new session

Captains and admins can create a Club Play session for an active mini-league.

Mini-league

Women's Doubles 3.5+

Club Play (/club-play) — signup, live courts, and game-by-game scores for one dated event.

Part 7 — Full Court Manager (optional)

Standalone Club Rankings does not include an in-app upgrade wizard. To add court booking later, contact support@stoufferai.com — your tenant, members, and ranking history can be moved to full Club Court Manager without starting over.

Billing (standalone)

\$19/month includes 150 active members. 14-day free trial at clubcourtmanager.com/start?product=rankings. Manage subscription in Admin → Billing. Full CCM uses the court-based plan (\$40 up to 6 courts, +\$5 each additional, unlimited members).

Part 8 — Training

Training is a shared practice environment for Club Rankings on the demo host. It uses **fictional players and sessions only** — nothing is saved to your club and your real roster is never touched. No sign-in is required. Training does **not** include court booking; the full CCM demo (courts + rooms) is a separate entry at `/login`.

8.1 How to open Training

Training runs at one shared URL (not on each community's own domain):

- **Direct link:** `https://your-sports-club.clubcourtmanager.com/rankings-scenario`
- **From Club Court Manager:** `clubcourtmanager.com/platform/rankings` → Try Training
- **Direct URL:** `https://your-sports-club.clubcourtmanager.com/rankings-scenario`

If you bookmarked `/rankings-scenario` on your own club site, you are redirected to the shared Training URL automatically. CCM's full court-booking demo remains at `.../login?fresh=1`.

8.2 Choose your role

The welcome screen asks you to pick one perspective. You can **switch roles anytime** from the banner at the top (Training as Member / Captain / Administrator). Each role shows only what that role can do on a real club.

Role	What you practice
Member	Browse fictional leaderboards and sessions; preview email/text notifications; sign up and practice entering scores on a live Club Play court (Training only — on a real club, members watch; captains enter scores)
Captain	Run Club Play (signup → live courts → scores); enter session results for a mini-league — <i>not</i> club-wide Admin → Settings
Administrator	Adjust club-wide weight presets with side-by-side leaderboard compare; full Club Play host tools

To see admin-only tools (club-wide weight sliders), exit Training and choose **Administrator** on the welcome screen. Captains do not get the Settings tab in Training.

Demo tour — Pretend it is 9:00 AM. The calendar starts at 9:00 AM (demo time), same as a real site starting at the current hour — no scrolling past closed morning slots.

Shared demo — exploring as **Captain** — Shared sandbox with sample data pre-filled so you can explore quickly. Data resets hourly; others may be using it at the same time. No email or text is sent in demo mode. [Switch to member](#) · [Switch to admin](#) · [Start your trial](#)

Training

Practice ranking weights and Club Play with fictional players. Choose Member, Captain, or Administrator on the welcome screen — nothing touches any real club roster.

Shared practice environment — 24 fictional players (Alex Rivera through Taylor Reed) for Club Play. The Settings tab uses four sample players per scenario for weight presets.

No sign-in required · fictional players only · [Training guide \(Part 8\)](#) · [Mini-league Playbook](#) — [practice](#)

Choose your role

Training uses fictional players only. Pick the perspective you want to explore — switch anytime from the banner at the top.

Train as member

See how simple it is — browse rankings, sessions, sign up for Club Play, and preview email/text notifications.

Train as captain

Run a fictional league night and enter session results — mini-league chair tools only.

Train as administrator

Practice club-wide ranking weights and Club Play with full admin settings.

Shared practice environment · no sign-in required · data is not saved to any real club

Training welcome — choose Member, Captain, or Administrator; fictional players only, no sign-in.

8.3 Member Training

- **My Rankings** — read-only fictional leaderboard (what members see day to day)
- **Sessions** — browse completed fictional league nights; standings come from captain/admin result entry
- **Notifications** — preview booking confirmations, reminders, and SMS codes (popups only; nothing is sent)
- **Club Play** — sign up as a player and practice entering scores on a live practice court (no host controls). **Training only** — on a real Club Play night, members watch scores; captains enter them.

8.4 Captain Training

Captains practice volunteer chair workflows:

- **Club Play practice** — full host flow with 24 fictional players (signup, Start live, scores, Complete session, Reset)
- **Enter session results** — sample form showing how official mini-league results update standings (practice save only)

Club-wide weight sliders (Admin → Settings) are **not** included in the Captain view. Switch to Administrator on the welcome screen to preview those.

8.5 Administrator Training

Administrators get both **Settings** and **Club Play practice** tabs. Settings includes all club-wide weight sliders — win %, placement, point diff, opponent/partner strength, optional **age handicap** (weight, baseline, spread), participation bonus, weekly caps, and more.

The **Weight Lab** on Settings shows component math for **8 fixed players** in one fictional session (win %, placement, point diff, opponent/partner strength, age). Move the sliders and watch Score and Adj update instantly so you can see *why* a weight mattered. Season compare boards below the lab still show multi-session standings for the selected scenario.

TRAINING PRACTICE This menu is for practice only — not shown on your live club site.

SettingsClub Play

Choose a scenario

Each preset loads sample sessions and recommended starting weights for that format or sport.

Scenario

Mixed league (Pickleball)

Adjust settings

Changes recalculate instantly — compare the right column to the scenario defaults on the left. Hover the ? beside each label for help.

Win % weight ?

40

Placement weight ?

22

Point diff weight ?

18

Opponent strength weight ?

12

Partner strength weight ?

8

Participation bonus / event ?

1

Age handicap weight ?

0

Age baseline (neutral) ?

50

Age spread (years) ?

25

Club rating (optional on your live site); play-adjusted 1.0–5.5 skill number. Enable on Admin → Settings; display checkboxes are independent.

Enable clubMin events for club rating

Training → **Administrator** → **Settings** — Weight Lab + side-by-side leaderboard compare (fictional players).

8.6 Scenario presets (Administrator)

Use the **Scenario** dropdown to load teaching presets. Each preset loads sample sessions and recommended starting weights for that format or sport:

Preset	Best for
Mixed league (Pickleball)	Weekly club nights — alternating round robin and king of the court

King of the Court	Placement-heavy formats when courts rotate
Round robin league	Win rate and point differential emphasized
Ladder mini-league	Season-long ladder with placement-focused weights
Bocce placement focus	Bocce sport preset — placement dominates
Tennis club preset	Tennis sport weight preset

Fictional players appear in every scenario preset for the Settings tab (four core characters). Club Play practice uses a separate pool of **24 fictional players**.

8.7 Adjust settings and compare (Administrator)

1. Pick a scenario from the dropdown.
2. Review the **default leaderboard** (left column) loaded from the preset weights.
3. Change weight sliders — win %, placement, point diff, opponent/partner strength, optional age handicap (baseline + spread), bonuses, etc.
4. Watch the **custom leaderboard** (right column) recalculate instantly.
5. Rows highlighted in yellow moved up or down vs the default — easy to see who gains or loses.
6. Hover the ? icon beside each setting label for a short explanation.

8.8 Club Play practice (Captain & Administrator host; Member participant)

Walk through a full fictional session with **24 players** (alternating men and women for mixed-doubles practice). **Captains and administrators** run the host flow:

1. Click player names to simulate signups, or use **Sign up all** (selects everyone up to max cap).
2. Choose **format** (King of the Court, round robin, ladder, or Swiss), **match size**, courts (up to 6), optional **number of rounds** at Start live, and optional max players. Blank rounds = round-robin default length from player/team count; king of the court, ladder, and Swiss keep auto-advancing until you end the session.
3. **Match size options:**
 - **Singles** — two players per side
 - **Doubles — fixed partners** — auto-pair in signup order (1+2, 3+4...) at Start live
 - **Doubles — manual pairs** — drag or click players into teams before Start live
 - **Doubles — random mix** — new partner each round; with equal M/F signup, partners are always one man + one woman (not available with ladder)
4. **How formats match players in practice:**
 - **King of the court** — winners stay (fixed/singles) or full remix each round (random mix)
 - **Round robin** — full schedule at Start live
 - **Ladder** — adjacent ranks; upsets swap ladder places

- **Swiss** — re-pair by tonight's wins / point differential each round; fills all courts; avoids rematches when possible
5. Click **Start live play** — only signed-up players are checked in (at least two required; random mix doubles needs at least four).
 6. Enter scores for each court and click **Save score** — for King of the Court, ladder, or Swiss, the next round starts automatically when every court in the round is scored.
 7. Click **Complete session** to see game-by-game scores, session totals (with **Perf** performance score), tiebreaker footnotes when applicable, and a before/after standings preview for the selected scenario.
 8. Nothing is saved — use **Reset practice** to start over.

Members in Training can sign up and enter scores on a pre-started live round but cannot start, complete, or reset sessions. That participant score entry is for practice in the sandbox only — it does *not* match a real Club Play night, where only the captain or admin enters scores.

Full format guide (choice + pairing method for each option) → Mini-league Playbook §4.4.

8.9 Apply to live rankings (Administrator)

When you are satisfied with weights in Training (Administrator role):

1. Return to Club Rankings → **Admin** → **Settings** for the sport you manage on your real club site.
2. Enter the same values (or close approximations) in the live settings form.
3. Click **Save settings** — the real leaderboard recalculates from completed sessions.

Mini-league captains who use **custom mini-league weights** should ask an admin to preview club-wide weight behavior in Training (Administrator role), then apply overrides on the Captain tab for their mini-league only.

Nothing is saved in Training. Practice sessions use ephemeral cookies on the shared demo site. Your club data is unaffected.

Part 9 — Mini-league playbook

The Mini-league Playbook is the canonical end-to-end guide for members, captains, and admins — sign up for Club Play, post scores (live or manual), and view mini-league standings. Download the PDF to share at league kickoff.
